INTRODUCTION

UZZI Sports was established in 2017 by one of the SCCA elite cricketer Syed Uzam Haider. Syed Uzzam Haider saw a need of quality cricket equipment with a price that is affordable to everyone. Since his brother was in-charge of a cricket factory Uzzam had an unique idea how to make a quality cricket equipment. He consulted with local and international cricketers to find out what actually are their idea of quality gears.

Uzzam work directly with manufactures and provided all the feed back he had received from local and international cricketers to make different cricket gears that included Bats, batting gloves, cricket balls, pads and lot of other gears. All his bats are pressed and pre knocked. His batting gloves has more protection. His pads are lighter and has protection on both sides. These are some of the traits of his equipments.

In a very short period of time UZZI Sports equipments are highly in demand among cricketers of all divisions of SCCA and other leagues of southern California.
